

PROJECT BASED TRAINING WITH ENTERPRISE INTERNSHIP

FROM CODING BASICS TO
PROJECT INTERNSHIP

INTERN ON REAL PROJECTS.

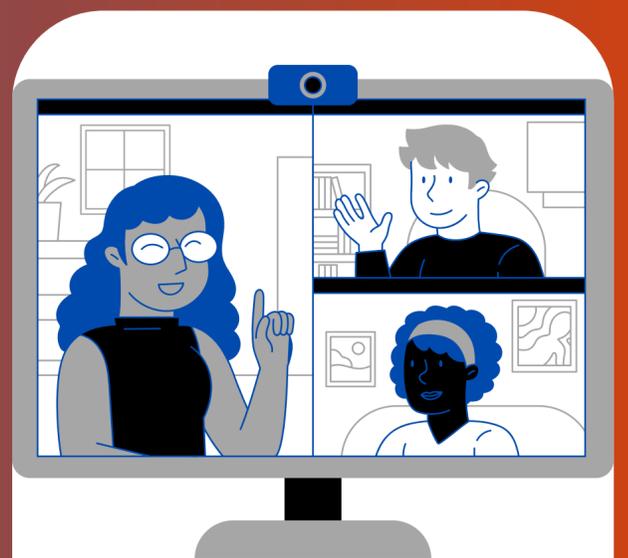

PROGRAM OVERVIEW

The Software Development Training-Led Internship Program is for aspiring developers who want real project-style exposure. You begin with a paid developer training phase that strengthens your programming fundamentals, version control usage and basic application development.

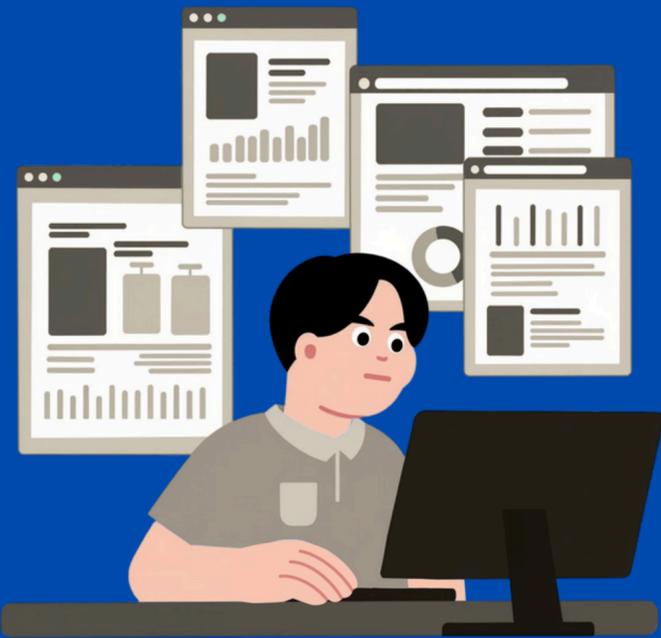

SOFTWARE DEVELOPMENT DOMAIN DESCRIPTION - WHAT YOU LEARN

- Programming fundamentals and problem-solving
- Working with Git and collaborative coding workflows
- Basic application structure, debugging and testing
- How development tasks are planned and tracked in teams

This pathway supports your growth towards roles like Junior Software Developer, Application Developer or Backend/Frontend Trainee, depending on the technology stack used.

Training + Internship Structure

- Training Phase
 - Language fundamentals and core concepts
 - Basic frameworks/tools as per program design
 - Coding exercises and mini-projects
- Internship Phase
 - Based on training performance + developer test
 - 3- or 6-month internship options
 - Tasks: bug fixes, small features, refactoring, documentation

Eligibility Criteria

- B.Tech / B.E / BSc (CS/IT), BCA, BCS, MCA, M.Sc (CS/IT)
- Interest in coding and building applications
- Basic programming knowledge required
- Must clear Developer program entry test

How to Join – Step-by-Step

1. Appear for the Internship Selection Test
2. Get Selected for the Software Internship Based on Performance
3. Enrol in Software Development Training
4. Complete Training Modules and Assignments
5. Join Internship Onboarding and Start Working on Cloud Tasks/Projects

Mentor Profile

Sarang Wakodikar

Founder & Director, SETTribe LLP | EdTech Visionary | Entrepreneur | IT Industry Veteran (18+ Years) | Corporate Trainer | Software Testing & QA Expert | Agile & DevOps Specialist | International Certification Mentor

SETTribe

SETTribe is an industry-driven EdTech organization focused on transforming education into employability through structured training, internships, and real-world exposure. With a strong emphasis on practical learning, industry-aligned skills, and mentorship, SETTribe empowers students and young professionals to become job-ready and confident contributors in today's competitive technology landscape.

- Stronger coding skills and project exposure
- Experience with real-style team workflows
- Internship certificate after completion
- Better preparation for junior developer roles

Key Benefits
